VISION for our Communities

Mark Stewart has a vision for enhancing the quality of life in our communities. He's one of us, and he understands the challenges we face whether it's a lost job at the Earthlink or Tyco, trouble with a landfill in upper Dauphin County, closing ambulance services, concerns about development and traffic congestion, or increased taxes. Mark will fight non-stop to make our lives better by:

- Attracting good-paying jobs and keeping them here in Dauphin County.
- Cutting taxes for working families and small businesses.
- Reforming a health care system that's costing us jobs, hurting our seniors and forcing our doctors to leave.
