# Working for Our Communities Protecting Our Resources Preserving Our Environment

RE-ELECT

**TED**  
**ERICKSON**  
STATE SENATOR

Paid for by Friends of Ted Erickson

*Ted Erickson is committed to Preserving Our Communities. As a former biology professor and the Regional Administrator of the Environmental Protection Agency, Ted Erickson has made it a priority to protect our environment and conserve our natural resources.*

**Air Pollution:** Ted supported legislation to reduce pollutants in automobile exhaust and to reduce mercury emissions from power plants. He also introduced legislation designed to lead to a reduction in greenhouse gases.

**Environment:** Ted supported Growing Greener II, an initiative to protect, restore, conserve and preserve Pennsylvania's environment. It will implement a \$625 million bond program that will be used by Counties for their open space preservation programs and by the State to preserve parks and forests and to clean up existing pollution.

**Energy:** Ted sponsored legislation that enacted a law that requires 18% of the energy produced and used in Pennsylvania to be from renewable resources such as wind and solar power. This will help to reduce our dependence on foreign oil and remove pollution from our environment.

For more information about what Ted has done for you, visit his website at
